Riverview Health to host memory problem and dementia seminar

Noblesville—Riverview Health will host a memory problem and dementia seminar on Wednesday, Feb. 13 from 6-7 p.m.

Join Dr. Nathan Parmer, a neuropsychologist board-certified in rehabilitation psychology, as he presents on common memory and cognitive conditions. Dr. Parmer will discuss the difference between mild cognitive impairment and dementia, types of dementia and how dementia is evaluated and diagnosed. If you or a loved one is experiencing memory problems, this event is a great opportunity to ask questions and get answers from an expert.

The seminar will take place at Riverview Health in the Krieg DeVault Conference Room, located in the lower level of the Women's Pavilion. A light dinner will be served. The program is free, but registration is required. Register at riverview.org/classes or call 317.776.7999.

About Riverview Health

Riverview Health is comprised of a full-service, 156-bed hospital in Noblesville and a hospital in Westfield with 24 beds. Also included are 23 primary, immediate and specialty-care facilities in Hamilton County. Riverview Health provides comprehensive inpatient and outpatient services in more than 35 healthcare specialties and has been frequently recognized for its clinical and service excellence. National achievements include Healthgrades America's 100 Best Hospitals for Orthopedic Surgery award (2019) and Outstanding Patient Experience award (2017-2018). Leapfrog Group awarded Riverview Health an A grade—the highest grade possible—for patient safety in 2017. As one of the largest employers in Hamilton County, Riverview Health recently received the Five-Star AchieveWELL Award through the Wellness Council of Indiana and was honored at the 2017 Indiana Health and Wellness Summit.
